SUBJECT: Determination of Department of the Army Permit Requirements for the Proposed Sheridan Retention Pond Project Located in Section 8, T5S-R13W, Grant County, Arkansas

This letter is in response to the request for review of possible regulatory requirements for the proposed Sheridan Retention Pond Project located in Grant County, Arkansas.

Based upon the information provided (enclosure 1), we have determined that a Department of the Army Section 404 permit will not be required for any of the proposed work, since there are no jurisdictional wetlands or other waters of the United States located within the proposed project site. For your information, I have enclosed a copy of an appeals form (enclosure 2).

This approved jurisdictional determination is applicable for a period not to exceed five years from the date of this letter unless superseded by law or regulation. If the proposed work is not completed by this time, or if project plans change, you should contact this office for a reevaluation of permit requirements and refer to the Identification No. MVK-2023-625 when submitting the information.

This determination of Department of the Army regulatory requirements does not convey any property rights, either in real estate or material or any exclusive privileges and does not authorize any injury to property or invasion of rights or local laws or regulations or obviate the requirement to obtain state or local assent required by law for the activity discussed herein.

The decision regarding this action is based on information found in the administrative record, which documents the district's decision-making process, the basis for the decision, and the final decision.
