additional responsibilities for the Contractor, the Contractor will be allowed to revise its proposal accordingly. The Government reserves the right to negotiate revised proposals.

5.2 Process for ordering Materials and Supplies. If the Government elects to include materials in RFP, the Government will include a lump sum bid item in the RFP. The lump sum bid item will include the entire cost for purchasing, delivery, protection, and maintenance of the materials until acceptance of the completed project by the Government. The Contractor shall include all labor and equipment costs for incorporating the materials into the work in the section of the proposal dedicated to labor and equipment. The Contractor shall attach copies of all quotes obtained from suppliers as evidence that the materials were obtained under adequate competition (see competition requirements for materials costing more than \$2,500.00 above). The Contractor shall provide a complete breakdown of all materials along with the quotes provided by the suppliers. The Government will then decide whether to accept, partially accept, negotiate or reject the Contractor's quote for the materials. If the Government rejects all or part of the material costs contained in the proposal, the RFP will be revised to allow the Government to provide the materials. The Contractor will be given an opportunity to then revise his proposal, and then the revised RFP will then be negotiated. If the Government accepts the Contractor's quote for materials, the Government will reimburse the Contractor the cost of these materials.

6. MOBILIZATION AND DEMOBILIZATION.

On each Task Order, the Contractor shall provide his cost for mobilization and demobilization. This cost for mobilization shall include all costs, including overhead and profit, incurred for loading, unloading, and setting up equipment at the work site, as specified in the Task Order under an agreed-upon method of work. The cost for demobilization shall be for all costs, including overhead and profit, incurred for loading, unloading and storing equipment used in the execution of the Task Order under an agreed-upon method of work, back to the origination point. Fifty (50) percent of the lump sum bid price for Mobilization and Demobilization shall be paid on the first partial payment estimate after the equipment arrives on the site ready to begin work. The remaining fifty (50) percent shall be paid on the final payment estimate after the equipment has been removed from the job site. Only equipment included in an agreed-upon method of work for a Task Order shall be included in the payment for Mobilization and Demobilization. To establish a basis for cost, mobilization and demobilization mileage shall be considered to originate and terminate at the Vicksburg District Corps of Engineers Office, 4155 E. Clay Street, Vicksburg, Mississippi, unless equipment to be used is at that time at a location closer to the Task Order work location. No payment shall be made by the Government for moving equipment to the origination point if the equipment is located outside the State of Mississippi or the MVD boundaries within the State of Mississippi. See Section 00800, Paragraph 18, Pricing, for more information regarding pricing mobilization and demobilization outside the State of Mississippi or the MVD boundaries within the State of Mississippi.

7. RESPONSE TIME.

THE CONTRACTOR MUST BE ABLE TO OBTAIN BOND/INSURANCE AND SUBMIT REQUIRED PLANS (AS STIPULATED IN THE TERMS OF THE CONTRACT) WITHIN 7 CALENDAR DAYS OF RECEIPT OF AN EXECUTED TASK ORDER. THE CONTRACTOR MUST BE ABLE TO ATTEND A PRE-WORK CONFERENCE WITHIN 3 DAYS OF RECEIPT OF AN EXECUTED TASK ORDER. THE CONTRACTOR MUST BE ABLE TO BEGIN WORK AT THE PROJECT SITE WITHIN 5 DAYS FROM THE DATE OF THE PRE-WORK CONFERENCE. DEPENDING ON THE COMPLEXITIES AND SIZE OF A TASK ORDER, THE PRE-WORK CONFERENCE MAY BE HELD BY TELEPHONE CONFERENCE OR IN PERSON AT THE PROJECT LOCATION OR THE VICKSBURG DISTRICT OFFICE. IF ACCEPTABLE TO THE GOVERNMENT, AN ALTERNATE LOCATION MAY BE USED.
